CALLS FOR PROPOSALS

TITLE AND DESCRIPTION OF THE PROGRAMME	DEADLINE
<p>Horizon 2020 - Societal Challenges - "Clean Sky 2 Call for Proposals 07"</p> <p>Clean Sky is a Joint Technology Initiative (JTI) that aims to develop and mature breakthrough 'clean technologies' for Air Transport. This is Clean Sky 2's biggest call to date, with 72 topics and a total indicative funding of €73 million.</p> <p>Eligible applicants: Any private or public organisation that is eligible for participation under Horizon 2020.</p> <p>More information: http://tinyurl.com/yccfa3ul</p>	27/02/2018
<p>Creative Europe – MEDIA Sub-programme "Support for Film Education 2018"</p> <p>The objective of the Film Education support is to stimulate the interest of the audiences, in particular young audiences, in European films and audiovisual works. The aim is to promote film literacy and film education in order to increase audiences' knowledge of European films and increasing the interest in these films, including works of the audiovisual and cinematographic heritage. It will also address the contribution that European films and other audiovisual works can make to education.</p> <p>Eligible applicants: Legal entities (private companies, non-profit organisations, associations, charities, foundations, municipalities/Town/ Councils, etc.) established in the MEDIA Sub-programme countries.</p> <p>More information: https://eacea.ec.europa.eu/creative-europe/funding/support-for-film-education-2018_en</p>	01/03/2018
<p>Asylum, Migration and Integration Fund - "Integration of Third-Country Nationals"</p> <p>The Asylum, Migration and Integration Fund aims at supporting actions to contribute to the efficient management of migration flows and the implementation, strengthening and development of a common Union approach to asylum and immigration. The call for proposals refers to the following topics:</p> <ul style="list-style-type: none"> • AMIF-2017-AG-INTE-01: Raising Awareness on migrant's contribution to EU Societies • AMIF-2017-AG-INTE-02: Community Building at local level for integration including through volunteering activities • AMIF-2017-AG-INTE-03: Pre-departure and post-arrival support for the integration of persons in need of international protection who are resettled from a third country including through volunteering activities • AMIF-2017-AG-INTE-04: Promote swift integration of TCNs into the labour market through strengthened cooperation and mobilisation of employers and social and economic partners • AMIF-2017-AG-INTE-05: Integration of victims of trafficking in human beings <p>Eligible applicants: Applicants and co-applicants must be legal persons established in an EU Member State, with the exception of Denmark.</p> <p>More information: http://tinyurl.com/y927myr3</p>	01/03/2018

CALLS FOR TENDERS

TITLE AND DESCRIPTION OF THE TENDER	DEADLINE
<p>"Study on opportunity and feasibility of an EU blockchain infrastructure" - SMART 2017/0044</p> <p>The objective of this study is to assess if, when and how blockchain technologies may help public authorities to deliver European services and implement policies in an optimised way. The study will provide a clear understanding of what type of intervention is more suited and on the opportunity, conditions and value added to support a EU blockchain infrastructure.</p> <p>Eligible applicants: All natural and legal persons coming within the scope of the Treaties.</p> <p>More information: https://etendering.ted.europa.eu/cft/cft-display.html?cftId=2312 (2017/S 214-444044)</p>	19/01/2018

PARTNER SEARCHES

PROGRAMME	TITLE OF THE PROJECT/ DESCRIPTION	COORDINATOR	DEADLINE
Horizon 2020 CE-SC5-07-2018- 2019-2020	The project aims at improving the environmental (control of emissions, residues, effluents), health and safety performance of operations throughout the whole life cycle. It will develop and demonstrate innovative pilots for the clean and sustainable production of non-energy, non-agricultural raw materials in the EU from primary and secondary sources finishing at TRL 6-7.	University of Wolverhampton United Kingdom	27/02/2018
Horizon 2020 CE-SC5-06-2018	The project aims to research on the economic viability of using gas to wire (GTW) technology as an integral component of gas flare management. The key objective would be to evaluate the technological feasibility and economic viability of purifying potential flare gas and using the recovered components as raw materials for other processes.	University of Wolverhampton United Kingdom	27/02/2018
Horizon 2020 NMBP-15-2019	The project aims at designing and developing new methods of production a new raw material to replace nickel compounds deregulated due to health and safety and environmental consequences of its use, thus reducing the environmental, health and safety risks and increasing the performance throughout the whole life cycle.	University of Wolverhampton United Kingdom	22/01/2019
